Report about SPM representative's work during both Olympics and Paralympics

Paolo Fumis was the representative of SPM Company, provider of the finish corral's air fences.

We had a large finish area covering 3 slopes and had the possibility to divide, depending on needs, in 2 full areas, giving us the possibilities to have safe run out and accesses to course crew exits, team areas and mixed zone.

This required almost every days a lot of logistic; thus it was very important to have a good crew and a good management.

The professionalism of **Paolo** was very helpful; he worked closely with International Federations, OC management and especially the chief of stadium (SPT function).

He was fully integrated in the staff, sharing his knowledge/experience, giving proper advises and taking right decisions even in stressful situations.

Sochi 2014 Games were a success; **Paolo** took an active part in it.

Yves Dimier

Alpine skiing Sochi 2014 sport manager
